

OBION COUNTY SCHOOLS

UPCOMING 7TH GRADE SCHOLAR SUMMER GUIDE

This past school year, your child had the opportunity to learn a tremendous amount to build on the knowledge from previous years. Some curricula covered during the previous year that require continued retention and repetition in order to be successful in the next grade are listed below.

English Language Arts:

- Write simple and compound sentences using correct punctuation and capitalization.
- Read for understanding.
- Identify the plot and theme of a story.

Mathematics:

- Multiplication facts
- Add, subtract, multiply, and divide fractions
- Add, subtract, multiply, and divide decimals
- Area and volume formulas
- Proportions
- Reduce fractions
- Order of operations

Next year, your child will have the opportunity to learn:

Listed below are some curricula for the upcoming school year that might be a challenge for students and suggestions on how students can prepare this summer.

English Language Arts:

- Write complex and compound-complex sentences using correct punctuation and capitalization.
- Read informational texts.
- Identify the central idea of a nonfiction text.

Mathematics:

- Add, subtract, multiply, and divide positive and negative whole numbers (integers), fractions, and decimals
- Ratio and percent problems (simple interest, tax, markups and markdowns, gratuities and commissions, fees, percent increase and decrease, and percent error)

Summer Reading List Recommendations

1. *Number the Stars* by Lois Lowry
2. *Where the Red Fern Grows* by Wilson Rawls
3. *Shadow* by Michael Morpurgo
4. *The Unwanteds* by Lisa McMann
