STUDENT POLICY HANDBOOK

STATEMENT OF PURPOSE

The Obion County Board of Education has adopted a code of student behavior to comply with the Tennessee Code Annotated 49-9-301. This handbook does not address every possible student action, nor does it address every possible disciplinary action that could be taken by the school personnel and administrators.

We, the Obion County Board of Education, provide this guide for all persons in the Obion County School System.

All institutions governed by the Obion County Board of Education are for the purpose of educating school age students. Any action which is deemed obstructive or not conducive to the learning process of students will be handled with an appropriate disciplinary action by professional employees. The following list constitutes procedures that may be used by employees of the Obion County School System. The procedures have been approved by the Board of Education; however, professional personnel are not limited to using only actions listed on the following pages.

The Obion County Board of Education has a responsibility to prepare students to take their place in society as mature, responsible adults. While the Obion County Board of Education desires to allow students flexibility in dress code, it is important that all students follow these guidelines in order to prevent stricter regulations.

A student’s physical appearance must be clean, neat, and not distracting. Students must adhere to the dress code on school buses. Parental judgment is suggested, but administrative judgment will take precedence. With this in mind, the following dress code is offered.

All students shall be expected to be in full compliance with the system-wide dress code as defined in Board Policy 6.310. School Safety Plan

Each school will develop and distribute to faculty and staff a code system for potentially dangerous situations. Codes for fire, tornado, and earthquakes exist. New codes will be assigned for other possibilities. These codes will be uncomplicated and there should be as few as possible to avoid confusion. Teachers should have a list of codes, readily available, but not posted in their rooms. As with fire, tornado, and earthquake, these new situations should be periodically practiced through drills.

Each classroom, in each school, should have all doors lockable so that teachers hearing an intruder code could lock all entrances to their classrooms. The locks should only be opened from the outside with a key. All external doors (with exception to the school front entrances) should be kept locked during regular school hours to deter intruders, but free for anyone to exit from the inside.

Acellular telephone will be kept outside the building with its location known and accessible to designated staff members. These phones are to be used for emergencies only.

In the event of power failures or evacuation of the building, schools are to

be equipped with loud hailers, bull horns, etc., so that key staff members can communicate with each other.

Schools should have a person assigned to handicapped persons for purposes of assisting them during emergency situations. There should also be a back up person assigned to each of the above mentioned persons.

All buses in the system shall be equipped with communication systems specifically designated for emergency situations.

An evacuation plan shall be designed for each school and on file at the principal's office. Evacuation plans shall also include the local school transportation department as the students may have to be far removed from the building in certain situations.

Certain persons in each school shall be designated to call 911 in case of emergencies.

Only the principal or designee should be allowed to release information to the press during emergency situations, and all other staff members should refer media personnel to the principal or the designee.

Staff members will be informed of existing statutes, rules and regulations which promote school safety through local school inservices. These training activities will include information about the Gun Free Schools Act, reporting incidents to law enforcement authorities and the code of conduct (TCA§49- 6-4006). Teacher and staff members will in turn distribute this information to students and parents.

No later than the beginning of the 2003-2004 school year, every local education agency (LEA) shall implement the Unsafe School Choice Policy approved by the State Board of Education as mandated under Section 9532 of the No Child Left Behind Act of 2001. FREE & REDUCED PRICE MEALS

Students who meet income eligibility requirements may receive free or reduced price meals in the school cafeteria. Application forms may be obtained from the teacher, principal, or cafeteria manager.

FOOD SERVICE CHARGE POLICY

Students in the Obion County School System may charge meals for the amount of one week’s lunches. This time frame gives the student leeway in case he/she forgets his/her money. In the event students do not bring money for their meals or make application for free or reduced priced meals, the following procedures will be followed:

1. If the allowed credit limit has been reached, the student will be sent to the principal’s office to call a parent for money or will be served an alternate meal.
2. All returned checks are sent to a check recovery company, which will collect the amount of the check plus charges for its services, which could include fees, court costs, etc.
3. No charges will be allowed for the purchase of extra milk.
4. No charges will be allowed for the purchase of extra ala carte items.

Parents may deposit money into their child’s cafeteria account the same as a person would make a deposit into a bank account. Parents may go to www.schoolcafe.com to request a printout of all meals, extra milk, etc. that their child has purchased in the school cafeteria as well as an account balance. Deposits and/or payment may be made with a credit card at any time. If a student owes \$10.00 or more in cafeteria charges, then he/she will not be allowed to participate in field trips.

For school lunch menus, go to www.obioncountyschools.com and hover over “For Schools” at the top. Slide down and click “Cafeteria Menus” and select your school’s breakfast or lunch menu link. Students are allowed to bring their lunch to school. Fast food will NOT be allowed. Parents or others are not to deliver fast foods to the students during meal times or during the school day. Carbonated beverages such as sodas are not allowed for student consumption in elementary and middle schools during the school day.

WELLNESS

The Obion County School System promotes healthy schools by supporting wellness, good nutrition, and 90 minutes of regular physical activity each week as part of the total learning environment. Food is not to be used as a reward and prohibiting the use of physical activity may not be used as a punishment. The school system supports a healthy environment where children learn and participate in positive lifestyle practices. We strive to create a school

environment that provides consistent wellness messages that are conducive to healthy eating and being physically active.

Improved health optimizes student performance potential and ensures that no child is left behind. Each school will have a wellness committee which consists of faculty members, parents, school nurse, and/or food service personnel. Local wellness goals will be established for each school. In order to comply with the Student Wellness Policy, parents are encouraged to provide only nutritious foods that adhere to the Smart Snack Regulations, which may be found at: <http://www.fns.usda.gov/sites/default/files/smartsnacksbrochure.pdf>.

Students will be encouraged to make physical activities a part of each school day.

COORDINATED SCHOOL HEALTH

The physical, social, and emotional health of students can support or hinder their academic success and their subsequent success in life. State and national data reveal that many Tennessee students engage in unhealthy behaviors that are detrimental to both their health and academic success. Our mission is to improve student’s health and their capacity to learn through the support of families, communities and schools.

The CDC’s Coordinated School Health (CSH) model is a systematic approach that ensures that a school community effectively links health with educational success.

The eight components of Coordinated School Health are

1) Health Education, 2) Physical Education, 3) Family/Community Involvement, 4) Health Services, 5) Nutrition Services, 6) Health Promotion for Staff, 7) Healthy School Environment, 8) Counseling, Psychological and Social Services.

The Coordinated School Health Goals

1. Establish state and local partnerships that are necessary to implement the Coordinated School Health model on a statewide basis.
2. Maximize the extent to which state agencies, local agencies, and the general public understand the crucial importance of student health and wellness to lifelong learning.
3. Maximize the ability of school communities to adopt and implement the Coordinated School Health model by providing appropriate and necessary resources tailored to the needs of each school community.
4. Promote a healthy school environment in Tennessee school communities.
5. Foster accountability for Coordinated School Health implementation in school communities.

SCHOOL PARTIES

Parties during school hours are considered a privilege for students and will be allowed at the discretion of the principal. Classroom parties and snacks will promote healthy food and beverage choices. Cupcakes, cookies, chips, and treat bags are acceptable as long as healthy foods such as vegetable trays, pretzels, and fruit are incorporated. Any exception to these guidelines must be approved by the principal.

COMMUNICABLE DISEASES

No child with a contagious disease, or who comes from a home where such prevails, shall enter or remain in school except by certificate from the attending physician.

HEAD LICE

Assessing and Addressing the Issue

The acute and chronic problem of head lice infestation in the school setting shall be approached in the following manner in the Obion County School System:

ASSESSMENT: All homeroom teachers will receive in-service training by the school health nurse for signs and symptoms of active lice infestation to include hair shaft measurement of nit location, and checking scalp and nape for redness, rash, or live lice.

ADDRESSING THE ISSUE: The teachers will check their students periodically for louse infestation. Suggested dates are first of school year, after Christmas and spring break, and as needed.

If the observation for active lice is positive, the teacher will refer the student to the health nurse for follow-up/recommendations, which include

- A. The school health nurse confirms the positive finding.
- B. Attempts will be made to locate the parent/responsible party for discussion of the proposed plan of treatment, which will include immediate implementation of the treatment plan.
- C. If the parent/responsible party cannot be reached or is unable to pick up the student immediately for treatment, the active lice treatment proposal plan with follow up information will be sent home with the student on this same day. Depending on the severity of the infestation, the student may or may not be allowed to return to class.

The student may return to school the following day for readmission with proof of treatment. The proof of treatment may be the box or the actual bottle of medication used or the olive oil treatment that may have been used.

Upon readmission, the school health nurse or principal will recheck the student for active lice infestation before the readmission process is complete. The student must have an admission slip from the principal to return to class.

Retreatment of the student will be enforced after seven (7) days unless “Nix” or the prescription Lindane has been used for treatment.

If a student is found to have a chronic reoccurrence of lice infestation (three times in a semester-90 school days), the principal may require that he/ she be free of all nits on the hair shaft as well as be free of live lice before readmission to school. The school health nurse shall make assessment with findings to the principal. If results are negative, the student may return to class. If results are positive, the student must return home with the parent for further treatment.

If lice infestation persists after the above protocol has been followed, the school health nurse may deem it necessary to make an environment evaluation during a home visit.

Athletic shoes, sandals, and boots are permitted. House shoes and flip flops are not permitted.

Headwear/Earrings/Jewelry/Piercing

Pierced jewelry must be limited to earrings only: students may wear two pairs of earrings provided the earrings are not distracting or present a safety issue. Other pierced jewelry (real or look alike) is not allowed.

Non-prescribed mouth accessories will not be allowed (i.e., no grills).

Hats, toboggans, bandanas, headscarves, sweatbands, stocking caps, hair racks/combs, hair rollers, combs, rakes, do rags, and sunglasses cannot be worn in the building. All tattoos and brands must be completely covered at all times.

Miscellaneous

Athletic teams/clubs—All teams and/or clubs shall travel in adherence to the dress code or approved team apparel. Field trips are included.

Haircuts, hairstyles, or hair color that is non-traditional to the point of causing distractions is not allowed. The principal or designee has the authority to determine if the attire is improper and interferes with the teaching/learning process or is prejudicial to good order at school.

Compliance/Dress Code Consequences

A student will not be allowed to return to class until the dress code violation has been corrected. Repeated non-compliance is determined to be a disciplinary issue.

Exemptions

A parent/guardian who objects to the Obion County School's standard dress code because of religious beliefs must obtain a copy of the dress code and request an exemption in writing. A parent/guardian may request, in writing, a medical exemption based on the medical needs of the student. The principal must accept or deny the request within two school days. If the request is denied, the principal must provide a written explanation for his/her decision.

A parent/guardian can appeal the principal's decision within two days to

the director of schools. The director of schools must meet with the parent/guardian within five school days of the receipt of the request and must render a decision within five school days after meeting with parent/guardian. If the request is denied, the director of schools must provide a written explanation for his/her decision.

The parent may make a final appeal to the Board of Education and ask the Board to review the written record of the request for exemption and the denials. This appeal must be made within five school days of the director of schools and/or his/her designee's denial of the appeal. The Board may hold a hearing on the exemption request at its discretion. The decision of the Board of Education is final. A student will remain in school in the dress style recommended by the parent until the appeal is final.

Obion County School System Faculty and Staff Dress Code

The faculty and staff of the Obion County School System are responsible for establishing a strong professional image. All faculty and staff are expected to dress in a way that brings credibility to the profession. Professional dress on regular school days is business casual. Professional dress does not include jeans, shorts, wind suits, and sweat suits. Revealing clothing is considered inappropriate. The school principals will make exceptions to these professional dress guidelines for special events, field trips, school spirit days, etc.
